

**RESPONSE TO REQUESTS FOR MISSION
ASSURANCE SUPPORT IN PROPOSAL OR
CONTRACT DEVELOPMENT**

LMS-CP-4751
Revision: B-3

**Proposal Development
Team Manager**

Objectives:
-to respond to requests for mission assurance support in proposal or contract development
-to identify the safety, quality, reliability, and/or risk management requirements

Approval Original signed on file
Associate Director for Business Management

General Information
The following records are generated by this procedure and are maintained in accordance with CID 1440.7:
-Assurance Requirements

Note 1
Refer to LMS-CP-4750, Product Assurance Plan Development and consider the following to develop Assurance Requirements:
-The project requirements and funding
-The product requirements
-NASA and industry best practices
-Political risk

Political risks involve those which could be considered highly sensitive to NASA.

Locate Assurance Requirements through research and consultation of NPRs that pertain to the project subject matter.

Note 2
No formal minutes or documentation of these reviews are required. Any notes which may be taken during this action will be retained in the MAB files.
